

ALBERTA DPF CLEAN

Advanced On-Vehicle Hydrogen Combustion System Treatment with Commercial Grade Patent Chemical Solution Cleans DPF and SCR Systems.

Restore Power, Reduce Emission, Eliminate Downtime.

Commercial Grade Patent Chemical – The Heavy-Duty DPF Cleaning Chemical

- ✔ Trusted by Fleets & Diesel Shops
- ✔ Cleans Your DPF Without Removing It

THE PROBLEM: WHY DPFs FAIL

Diesel particulate filters clog due to:

- Heavy soot accumulation
- Hardened ash deposits
- Oil contamination
- Failed or incomplete regenerations

When a DPF becomes restricted, it causes:

- Loss of engine power
- High fuel consumption
- Excessive regen cycles
- Turbo stress & overheating
- Costly downtime
- Emission failures

Traditional DPF cleaning requires removal, which risks breaking brackets, sensors, and clamps—and often still does not remove oil and ash completely.

Before Cleaning

After Cleaning

THE SOLUTION:

Commercial Grade Patent Chemical

The Only True On-Vehicle DPF Cleaning System for Commercial Fleets

Our commercial grade patent chemical is engineered for Class 6–8 diesel trucks, fleets, waste management trucks, construction vehicles, and diesel repair facilities

What Commercial Grade Patent Chemical Does

- Dissolves soot, carbon, oil residue, and ash
- Restores DPF airflow & engine performance
- Reduces regen frequency
- Prevents unnecessary DPF replacements
- Restores fuel economy
- Keeps fleets operating with minimal downtime

Why It Works Better

- No DPF removal
- No damage to sensors or brackets
- No expensive downtime
- Cleans deeper than traditional brackets/pressure methods

BENEFITS FOR COMMERCIAL FLEETS

Fast Service

Clean DPF/SCR and Combustion system in 90 Minute+regen.

Lower Operating Costs

Avoid thousands in DPF replacement costs.

Higher Fuel Efficiency

Engines run cleaner, smoother, and cooler.

Fleet Reliability

Less downtime = more trucks on the road.

Eco-Friendly

Commercial grade patent chemical is biodegradable and reduces landfill waste from discarded DPF units.

Ideal For

- Transport & logistics fleets
- Owner-operators
